

Pastoral Emergency Contact

The Pastoral Network database has 2 purposes.

Firstly: it is part of the official Parish Emergency Response Plan to be used in the event of a public curfew (most likely in the case of a flu epidemic). Our Archdeacons require all parishes to have an agreed Plan in place against such an emergency. We keep a database as part of our Plan. This information is only used by the Vicar to arrange care (practical, medical and spiritual) in emergency situations

Our Full Emergency Plan can be viewed on request.

Secondly: the email addresses form the basis of circulation for our weekly newsletter and for occasional pastoral contact for clergy use only. This list is not in the public domain and is not shared with anyone else.

Please provide the following information and give your consent by signing at the end as indicated on page 2. Return this to the Vicar. Thanks for your help.
